

P4P Overview

TO IEHP DOCTORS:

Welcome to the IEHP Pay for Performance Program (P4P). This program offers incentives to qualified IEHP PCPs and OB/GYN Specialists who provide preventive and chronic care health services to our Members.

The P4P program and its components are structured according to IEHP's HEDIS studies. In addition, all program changes are aligned with HEDIS measures. Currently, IEHP's contracted PCPs and OB/GYN Specialists are incentivized directly through P4P under four program components:

1. Cervical Cancer Screening
2. Perinatal Services
3. Postpartum Services
4. IEHP DualChoice Annual Visit

TO PARTICIPATE

PCPs and OB/GYN Specialists are automatically enrolled in P4P upon completion of IEHP's credentialing process, designation of an effective date for participation in the IEHP network and initial provider in-service completion. **Request for Taxpayer Identification Number and Certification (Form W-9) information verified during the credentialing process will be used for remittance of P4P payment.**

Since data submissions must be done electronically through the IEHP website, www.iehp.org, a high-speed Internet connection is necessary to participate in P4P.

PROGRAM RULES

PCPs may only participate in the IEHP DualChoice Annual Visit. OB/GYN Specialists may participate in the Cervical Cancer Screening, Perinatal Services, and Postpartum Services components.

IEHP has the right to change or terminate this program or any of its components at any time without notice. Any incentives paid under the P4P program for services deemed inappropriately submitted will be recouped from future P4P incentives. All cases of suspected fraud or abuse will be investigated thoroughly and reported to the appropriate authorities. All IEHP's decisions are final.

HAVE A QUESTION?

For more details on our P4P Program, call the Provider Relations Team at (909) 890-2054.
