Date: July 27, 2021
Subject: **Blood Lead Screening Roster for PCPs – Now Available**

The Blood Lead Screening Roster is now available on the IEHP Secure Provider portal.

On May 14, 2021, IEHP issued a blast fax titled “APL 20-016 Requirement for Primary Care Providers.” The requirements stated in APL 20-016 were listed including **ordering or performing blood lead screening tests on all child Members between the ages of 12 months to 72 months.**

IEHP has launched the Blood Lead Screening Roster on the IEHP Secure Provider portal. This roster is intended to help identify child Members **between the ages of 12 months and 72 months who have not yet received a Blood Lead Screening test and notify you when their next screening may be due.**

IPAs must ensure their Providers adhere to the Blood Lead Screening testing requirements stated in APL 20-016, and are aware of the function and availability of the Blood Lead Screening Roster.

To access the Blood Lead Screening Roster, Providers must log in to the IEHP Secure Provider portal at: <https://www.iehp.org>.

- Select **Rosters** from the navigation panel on the left and then select **Preventive Care**.
- Under the **Preventive Care** dropdown menu, select **Blood Lead Screen**.

The screenshot shows the IEHP Secure Provider portal interface. On the left is a navigation panel with a dropdown menu for "Preventive Care" which is expanded to show various options. "Blood Lead Screen" is highlighted in a red box. The main content area displays a table of screening information for a member.

| Service | DOS |
|--------------------|------------|
| 24 Month Screening | 10/08/2019 |
| 72 Month Screening | 11/30/2017 |
| 24 Month Screening | 12/08/2016 |

The following information should be used to help PCPs coordinate Members' care:

The screenshot shows a table with the following columns: Member Phone, Member DOB (Age), LOB, NPI, PCP, Plan Effective Date, PCP Effective Date, and Next Date. The 'Next Date' field contains '07/14/2021' and is circled with a red '1'. Below the table, there is a row with 'Service' and 'DOS' columns. The 'Service' field contains '24 Month Screening' and is circled with a red '2'. The 'DOS' field contains '08/12/2016' and is circled with a red '3'.

1. **Next Date*** – next date at which the Member is **due for a Blood Lead Screening test**.
2. **Service** – Type of screening performed (e.g., 24-month screening, 72-month screening).
3. **DOS** – Date of **Service** or Date the **Service** was performed.

*If the **Next Date** field reads **“N/A”** this means the **Member has already completed their required Blood Lead Screening tests**.

The screenshot shows the top of the roster interface. It includes a navigation bar with a 'Print' icon (callout 4), a 'CSV' icon (callout 5), and a 'Screening Overview' link (callout 6). Below the navigation bar, it says 'Member(s) Found: 764'. The table below has columns: Member Phone, Member DOB (Age), LOB, NPI, PCP, Plan Effective Date, PCP Effective Date, and Next Date. The 'Next Date' field contains '11/17/2021'.

4. You may also click the **‘Print’** icon to print the roster as needed.
5. The roster has an option to download a Comma Separated Values (**CSV**) file which can be opened in Microsoft Excel.
6. If you would like to view APL 20-016, you may click on **‘Screening Overview’** to review it in PDF form.

The Blood Lead Screening Roster is updated weekly and is based on encounter data received by IEHP. To ensure rosters have the most updated information, Providers must submit all encounter data timely and accurately.

As a reminder, all communications sent by IEHP can also be found on our Provider portal at: www.iehp.org > Providers > Plan Updates > Correspondences.

If you have any questions, please do not hesitate to contact the IEHP Provider Relations Team at (909) 890-2054 or (866) 223-4347.
