

To: ALL IEHP Providers and IPAs
From: Jarrod McNaughton, IEHP Chief Executive Officer
Date: December 8, 2021
Subject: **IEHP Recognized for Innovation Five Years in a Row**

Inland Empire Health Plan (IEHP) is proud to share with our partners that we have been awarded the DHCS “Innovation Award - Runner Up 2021” for the Medi-Cal PCP Auto Assignment Redesign.

This distinction recognizes IEHP’s creation of an algorithm to auto-assign Members to Providers with higher quality scores, improving Members’ overall quality of care.

As an organization, IEHP embraces innovation, believing it allows us to see beyond our present circumstances and barriers and stretch our thinking to what is possible for our Providers and ultimately, our Members. It is an honor to be recognized as a world changer in our sphere of influence and we look forward to highlighting those in our community who strive to improve the lives of others.

Having won the Innovation Award four years in a row, this year we are honored to be known as a Runner Up for our efforts to serve our Members, Providers, Communities, and each other. IEHP embraces future opportunities to do even more, as we seek to heal and inspire the human spirit.

Thank you for partnering with us to meet our community’s needs.

With gratitude,

As a reminder, all communications sent by IEHP can also be found on our Provider portal at: www.iehp.org > For Providers > Plan Updates > Correspondences

If you have any questions, please do not hesitate to contact the IEHP Provider Relations Team at: (909) 890-2054 or (866) 223-4347.
