Inland Empire Health Plan

To: All IEHP PCPs
From: IEHP – Provider Relations
Date: April 6, 2022
Subject: **Alzheimer’s and Dementia Care: A Project Echo Opportunity**

Inland Empire Health Plan (IEHP) is pleased to share interactive, teleconference-held learning sessions to bring advanced training and support to PCPs.

Offered by **The Alzheimer’s Association for Inland Empire Primary Care Clinics**, expert, panel-led teleECHO lessons and group consultations are meant to build capacity within Primary care and increase access to specialty care. **The first training kicks off May 18th, 2022: Diseases Causing Dementia.**

95% of all attendees have found the courses useful AND have implemented changes to their practices.

During the teleECHO sessions you will learn how to:

- Implement care guidelines for Alzheimer’s and dementia detection, diagnosis, disclosure, and follow-up processes
- Communicate with the patient and caregivers and initiate care planning
- Manage the effects of the disease
- Access resources for the patient and caregivers

Benefits to your primary care practice include:

- Coaching from other primary care practices and a multidisciplinary team of specialists on a de-identified patient case presentation
- Direct access to a variety of experts in their field - geriatricians, neurologists, neuropsychologists, and social workers
- Open access to resources used during the series, such as session recordings, peer cases, research, and guides
- Increased confidence and knowledge in addressing Alzheimer’s and dementia in your 65+ patient population
- Free education for multiple staff members and no travel required
- Continuing education credits available at no cost and a certificate of completion

To view the training schedule and register, please visit:
