

# Living the Mission Awards

IEHP's *Living the Mission Awards* honor Providers, Community Partners, and entities whose actions and contributions embody IEHP's Mission, Vision and Values. The nomination window opens each year from the first of December through mid-February.

Four different *Living the Mission Awards* are conferred each year at the IEHP Annual Mission Conference:

## INSPIRE AWARD

This award honors a Provider, entity, or Community Partner that exemplifies IEHP's Mission, "We heal and inspire the human spirit." This is demonstrated by:

- Having compassion that extends to all the people they serve
- Investing time and energy in their community through acts of service
- Inspiring and motivating others to serve and to be their best
- Being a servant-leader that others want to follow and emulate

## OPTIMAL CARE AWARD

This award honors a Provider or entity that exemplifies world-class care and outcomes in preventive care, chronic care or hospital care. This includes clinical outcome data review and Member's experience data review. This is demonstrated by:

- Clinical care and outcomes that exceed national benchmarks and consistently follow best practice
- Care that is seamlessly coordinated from prevention – across the whole care continuum
- Care that is built on cultural humility and respectful, holistic, human-centered experiences

*Note: Criteria will be based on quality measures including preventive care, chronic care and hospital performance.*

## VIBRANT HEALTH AWARD

This award honors a Provider, entity, or Community Partner that exemplifies engagement with the well-being and joyful life of the residents of the Inland Empire. This is demonstrated by:

- Passionate participation in raising awareness of and reducing the social determinants of ill-health
- Actively supporting core individual and community needs such as food security, shelter, and safety
- Working to ensure health and well-being are equitably experienced across our diverse communities

## CREATIVITY AND INNOVATION AWARD

This award honors a Provider, entity, and Community Partner that exemplifies the courage to "break the mold" in pursuit of innovative ways to address the health concerns of the residents of the Inland Empire. This is demonstrated by:

- Daring to experiment and do something to truly shift the paradigm

*Note: The Optimal Care Award will be weighted heavily on IEHP-reviewed performance outcome data. You are still welcome to submit a nomination for a Provider, hospital or entity that you believe is delivering world-class care under the Optimal Care criteria.*
