Subject: **Global Quality P4P PCP – 2022 Program Guide Update**

Inland Empire Health Plan (IEHP) has made an update to the 2022 Global Quality P4P (GQ P4P) Program Guide for PCPs – Quality Bonus Services.

IEHP will no longer require vaccine administration codes to be submitted for the Quality Bonus Services – **Pediatric Immunizations Administration** and for **Adult Influenza Vaccine Administration**. IEHP will pay the incentive for these two measures based on the antigen administered.

The following codes have been removed from the **Pediatric Immunizations Administration** and **Adult Influenza Vaccine Administration** services:

Pediatric Immunizations Administration

- Removed: 90640

Adult Influenza Vaccine Administration

- Removed: 90471
- Removed: 90473

This update is effective immediately. Please update your billing processes and continue to follow best billing practices in reporting vaccines administered to your patients at your office.

The 2022 GQ P4P Program Guide is located on the IEHP website:
