Subject: **Last Phase: Medi-Cal Rx Reinstatement of PAs for 46 Drug Classes, Including Medical Supplies – Effective February 24th**

On February 24, 2023, **prior authorization (PA) requirements will be reinstated for 46 additional Standard Therapeutic Classes (STCs)**, including medical supplies, for new start prescriptions for beneficiaries 22 years of age and older. “New starts” are defined as new therapies or medications not previously prescribed to the beneficiary during the 15-month lookback period.

This will complete the reinstatement of PA requirements for new start prescriptions **for beneficiaries 22 years of age and older**. However, Medi-Cal Rx will continue to utilize PA and claims data to allow for grandfathering of previously approved PAs until Phase III of Reinstatement, as announced in the alert.

- New starts, for beneficiaries 21 years of age and younger within these 46 STCs, including medical supplies, will not be subject to PA reinstatement in Phase II.
- **Do not submit PA requests prior to February 24, 2023**, for drugs or products in one of the following 46 STCs, including medical supplies, that will require a PA. If submitted, the PA request will be returned with a message that no PA is required.

★ Please see attachment for complete list of reinstated drugs.
