---

---

All IEHP Providers are invited to call in to a special webinar for clinicians on the **Coronavirus Disease (COVID-19)**. It will be held on **Thursday, March 5, 2020, from 11am to 12pm (PST)**. The webinar is being presented by the Centers for Disease Control and Prevention (CDC) and Clinician Outreach and Communication Activity (COCA).

During this call, Providers will learn what they can do to prepare for COVID-19 including identifying persons under investigation, applying infection prevention and control measures, assessing risks for exposures, optimizing the use of personal protective equipment supplies, and managing and caring for patients (inpatient and at home).

Due to high demand, the CDC is asking participants to access the webinar in a group format if possible. **Advanced registration is not required.**

You may also participate by viewing COCA’s Facebook Live broadcast.

We highly encourage you to join this webinar. Knowing current facts about this virus will help you take the appropriate precautions and help you mitigate any excessive fears our Members may be experiencing. Although the immediate risk to the general public in the Inland Empire is low, Public Health is carefully assessing this situation as it evolves. We will continue to give you updates as we receive them.
