

World Professional Association for Transgender Health (WPATH) Global Education Initiative (GEI) Training Course Survey

Inland Empire Health Plan (IEHP) is planning to host a World Professional Association for Transgender Health (WPATH) Global Education Initiative (GEI) training course on the Foundations in Transgender Health in November 2019.

Foundations in Transgender Health is intended for Providers of all experience levels. This two (2) day training course for healthcare professionals from all specialties in the implementation of the Standards of Care focuses on the importance of an interdisciplinary care team approach and cross specialty foundational knowledge. What all Providers should know about gender development, mental health considerations, legal, policy and ethical issues, primary care and preventative health, puberty blockers and hormonal treatment, surgical overviews and much more. Includes interactive multi-disciplinary case studies. CME credits will be offered.

The purpose of this survey is to inquire as to what dates would work best for you as a Provider to attend this two (2) day training if you are interested. The training will take place in the Inland Empire; however, the exact location is still being determined.

Please select which of these dates might work best for you if you would like to participate in this conference. Please complete this form and fax it back to IEHP by **Thursday, August 15, 2019**. Again, these are not final dates; we want feedback from our Provider network on which dates work best for interested attendees.

Please select one (1) date:

November 7th and 8th (Thursday and Friday) _____

November 8th and 9th (Friday and Saturday) _____

November 9th and 10th (Saturday and Sunday) _____

Please complete by Thursday, August 15, 2019

and send the form to:

Fax number: (909) 296-3550
