Date: February 06, 2019
Subject: **Webinar: Falls Prevention For Older Adults**

The CMS Medicare-Medicaid Coordination Office (MMCO) will be hosting a webinar training opportunity regarding Falls Prevention for Older Adults. This webinar will provide an overview of the importance of falls assessment and falls prevention for older adults and their caregivers and offer concrete interventions and strategies for Providers to improve mobility and prevent falls.

By the end of this webinar, participants should be able to:

1. Recognize the public health impact of falls and injuries in older adults.
2. Identify health-related factors and environmental factors that can lead to increased risk of falls or injury.
3. List interventions that may help to reduce falls among dually eligible older adults.
4. Describe how to leverage person-centered care plans to reduce the risk of falls.

Continuing Medical Education (CME) and Continuing Education (CE) credits will be available at no cost to webinar attendees via the American Geriatrics Society, the National Association of Social Workers, and from the CMS Learning Management System.

Webinar:	Falls Prevention for Older Adults
