# Improving Chlamydia Screening among Adolescents in Primary Care eLearning Collaborative (CT eLC)

## Achieve measurable practice improvement in:

- ★ chlamydia screening rates among adolescent patients
- ★ sexual activity assessment + confidential medical record documentation
- ★ staff knowledge of quality improvement (QI) methods + STD clinical best practices

**JOIN US!** Receive FREE training, tailored coaching, and peer-to-peer support on implementing QI methods to improve adolescent and STD clinical care best practices

## WHAT

The California Department of Public Health, Los Angeles County Department of Public Health, and Essential Access Health are partnering with STD and QI experts from the National STD Quality Improvement Center to host a QI initiative, funded by the [Centers for Disease Control and Prevention](#), which aims to support primary care practices in increasing chlamydia screening rates, with an emphasis on adolescent patients.

## WHEN

**September 2019 - March 2020**

- *Project Orientation:* September 2019
- *Project Period:* October 2019 - March 2020

## WHO

Primary care practices across the state of California that serve a general patient population, including at least 20 adolescent patients per month (ages 12-24 years), e.g., federally-qualified health centers, pediatric group practices, community clinics, etc.

## WHERE/HOW

**eLearning Collaborative:** Practice teams will take part in monthly ~1-hour virtual workshops that facilitate clinical education and peer-to-peer technical assistance, and will obtain tailored QI and healthcare coaching from local, state, and national QI, STD, and adolescent sexual health experts.

## WHY

This FREE opportunity has been developed for practices interested in improving or instituting best practices related to: (1) person-centered care for their adolescent patient panel, (2) confidentiality protocols, (3) sexual healthcare, and (4) STD/chlamydia screening.

*This project has been approved for 25 MOC Part 4 credits from the American Board of Pediatrics, 20 Performance Improvement (i.e., MOC) credits from the American Board of Family Medicine, and 20 Performance Improvement CME/CEU credits from the American Academy of Pediatrics.*

## NOW ACCEPTING APPLICATIONS!

Apply now through July 26, 2019 @ <http://bit.ly/CTeLCAApplication>.

For more information, visit NQIC's [CT eLC webpage](#) or listen to the recording of the [Informational Webinar for Practices](#).
