An update has been made to the **2019 Global Quality P4P (GQ P4P) Program**. Details of the changes are available in the P4P Program Guide published on **May 22, 2019** in the Providers section on the IEHP website at [https://iehp.org/en/Providers](https://iehp.org/en/Providers)

**Additional Measures Added to the 2019 GQ P4P Program:**

- Adolescent Well-Care Visits
- Adult BMI
- Well-Care Visits in the First 15 Months of Life

**Update to Tier 2 goals:**

In response to the California Department of Healthcare Services (DHCS) increased standards on Medi-Cal Quality performance, tier 2 goals have been updated to meet the 50th percentile minimum performance level for the 2019 program year. To qualify for Tier 2, your score must indicate 20% reduction in non-compliance and meet the 50th percentile for all clinical quality and behavioral health measures. Please see Appendix 1 in the PCP 2019 GQ P4P Program Guide for updated tiers.
