Subject: New IEHP Encounter Data Adequacy Reports

IEHP is happy to re-introduce the IPA Encounter Data Adequacy reports. The new reports have been built to reflect all encounters received for your IPA assigned membership over a rolling 24-month period. It includes all encounter data that was submitted directly to IEHP from all Providers (i.e., IPAs and individual Providers). It is not limited to encounters submitted by your IPA.

We hope this report will provide better transparency into the encounter data successfully received by IEHP for all your assigned IPA Members. This report will be sent to your IPA on a monthly basis and will be used to determine IPA compliance with IPA adequacy reporting requirements noted in Provider Policy 21A, “Encounter Data Submission Requirements”.

Please note that this report should be used along with X12-999 (Transaction Set Structural Validation Response for 837I and 837P files) and EVR (Encounter Validation Response for 837I and 837P files) to ensure all encounters are successfully received by IEHP.

Thank you for your continued partnership to improve the quality of care provided to IEHP Members by improving the quality of data sharing across the healthcare system.

As a reminder, all communications sent by IEHP can also be found on our Provider portal at: www.iehp.org > For Providers > Plan Updates > Correspondence.

If you have any questions, please do not hesitate to contact the IEHP Provider Relations Team at (909) 890-2054.
