

ALZHEIMER'S AND DEMENTIA CARE: A PROJECT ECHO® OPPORTUNITY FROM THE ALZHEIMER'S ASSOCIATION FOR INLAND EMPIRE PRIMARY CARE CLINICS

What is Project ECHO®?

- Case-based, interactive learning sessions (similar to clinical rounds) delivered via videoconference to bring advanced training and support to primary care providers.
- Expert panel ("Hub") delivers short didactic lessons and group consultation on de-identified patients from community clinics (the "Spokes").
- Goals are to build capacity within primary care and increase access to specialty care.

During the teleECHO™ sessions you will learn how to:

- Implement care guidelines for Alzheimer's and dementia detection, diagnosis, disclosure, and follow-up processes.
- Communicate with the patient and caregivers.
- Initiate care planning.
- Manage the effects of the disease.
- Access resources for the patient and caregivers.

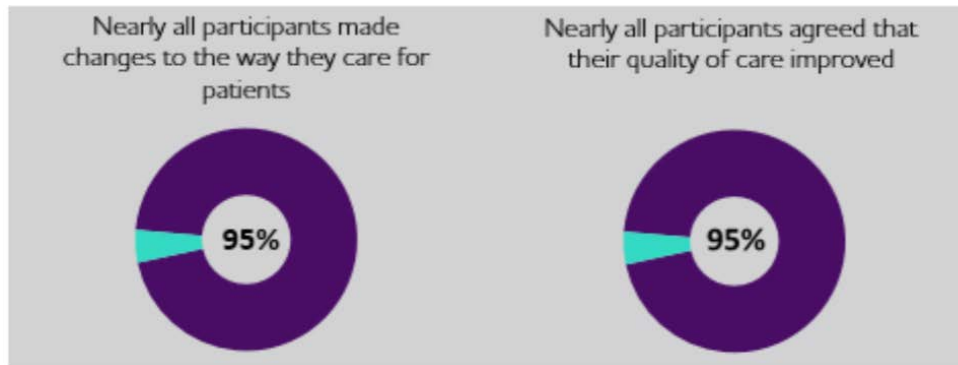

Benefits to your primary care practice includes:

- Receive **coaching** from other primary care practices and a multidisciplinary team of specialists on a de-identified patient case presentation
- **Direct access** to a variety of experts in their field such as geriatricians, neurologists, neuropsychologists, and social workers
- **Open access to resources** used during the series, such as session recordings, peer cases, research, and guides.
- A **certificate of completion**.
- **Increased confidence and knowledge** in addressing Alzheimer's and dementia in your 65+ patient population.
- **Free to participate** with no travel for multiple staff members.
- **Continuing education credits** are available at no cost.

PARTICIPANT FEEDBACK

TESTIMONIALS

I loved this series and learned a great deal and am using the skills and knowledge from this training with caregivers and patients, and I feel more confident working with patients with dementia. - 2/18/2021

I really enjoyed the case studies and the advice from the panel, but I most enjoyed hearing the special speakers that deal with this day in and day out because unfortunately Alzheimer's and Dementia is not a disease that affects one person's life but all those around them. - 2/18/2021

When [the faculty] said that we should "run toward the diagnosis"...that really hits home with me and is something we don't typically do, mostly due to my own discomfort and my prior lack of knowledge regarding things we can and should do next in the face of this potential diagnosis. That is changing through education and experience (especially in this series)."- 6/25/2021

I want to participate in this series again!- 8/12/2021

In support of improving patient care, Rush University Medical Center is jointly accredited by the American Nurses Credentialing Center (ANCC), the Accreditation Council for Pharmacy Education (ACPE), and the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing education for the healthcare team.

Rush University Medical Center designates this live activity for a maximum of 1.0 *AMA PRA Category 1 Credit(s)™*. Physicians should claim only credit commensurate with the extent of their participation in the activity.

ANCC Credit Designation – Nurses The maximum number of hours awarded for this CE activity is 1.0 contact hours. This activity is being presented without bias and without commercial support.

Rush University is an approved provider for physical therapy (216.000272), occupational therapy, respiratory therapy, social work (159.001203), nutrition, speech-audiology, and psychology by the Illinois Department of Professional Regulation.
