COVERAGE POLICY

- A. Housing Deposits assist with identifying, coordinating, securing, or funding one-time services and modifications necessary to enable a person to establish a basic household that do not constitute room and board, such as:
1. Security deposits required to obtain a lease on an apartment or home.
 2. Set-up fees/deposits for utilities or service access and utility arrearages.
 3. First month coverage of utilities, including but not limited to telephone, gas, electricity, heating, and water.
 4. First month's and last month's rent as required by landlord for occupancy.
 5. Services necessary for the individual's health and safety, such as pest eradication and one-time cleaning prior to occupancy.
 6. Goods such as an air conditioner or heater, and other medically-necessary adaptive aids and services, designed to preserve an individual's health and safety in the home such as air filters, specialized cleaning, or pest control supplies that are necessary to ensure access and safety for the individual upon move-into the home.
- B. The services provided should be based on individualized assessment of needs and documented in the individualized housing support plan. Individuals may require and access only a subset of the services listed above.
- The services provided should utilize best practices for Members who are experiencing homelessness and who have complex health, disability, and/or behavioral health conditions including Housing First, Harm Reduction, Progressive Engagement, Motivational Interviewing, and Trauma-Informed Care.
- C. Services do not include provision of room and board or payment of ongoing rental costs beyond the first and last month's coverage as noted above.
- D. Member Eligibility for Housing Deposits:
1. Any Member who received Housing Transition/Navigation Services in counties that offer Housing Transition/Navigation Services;
 2. COVERAGE LIMITATIONS AND EXCLUSIONS

- A. Community Supports shall supplement and not supplant services received by the Medi-Cal beneficiary through other State, local, or federally funded programs, in accordance with the CalAIM STCs and federal and DHCS guidance.
- B. Housing Deposits are available once in an individual's lifetime. Housing Deposits can only be approved one additional time with documentation as to what conditions have changed to demonstrate why providing Housing Deposits would be more successful on the second attempt.
- C. These services must be identified as reasonable and necessary in the individual's individualized housing support plan and are available only when the Member is unable to meet such expense.
- D. Individuals must also receive Housing Transition/Navigation services (at a minimum, the associated tenant screening, housing assessment and individualized housing support plan) in conjunction with this service. Refer to the UM Subcommittee Approved Authorization Guideline, Housing Transition/Navigation Services.
- E. Community supports shall supplement and not supplant services received by the Medi-Cal beneficiary through other State, local, or federally-funded programs, in accordance with the CalAIM STCs and federal and DHCS guidance.

ADDITIONAL INFORMATION

Members who meet the eligibility requirements for Housing Deposits should also be assessed for enhanced care management. When enrolled in enhanced care management, Community Support Services should be managed in coordination with enhanced care management Providers. When Members receive more than one of these services, the managed care plan should ensure it is coordinated by an enhanced care management Provider whenever possible to minimize the number of care/case management transitions experienced by Members and to improve overall care coordination and management.

CLINICAL/REGULATORY RESOURCE

CalAIM is an initiative by the Department of Health Care Services (DHCS) to improve the quality of life and health outcomes of Medi-Cal beneficiaries by implementing broad delivery system, programmatic, and payment system reforms. A key feature of CalAIM is the introduction of a menu of Community Supports that offer medically appropriate and cost-effective alternatives to services covered under the State Plan. Federal regulation allows states to permit Medicaid managed care organizations to offer Community Supports as an option to

Members (Code of Federal Regulations).
