

Accessible Clinics Program

A Public Entity

Inland Empire Health Plan

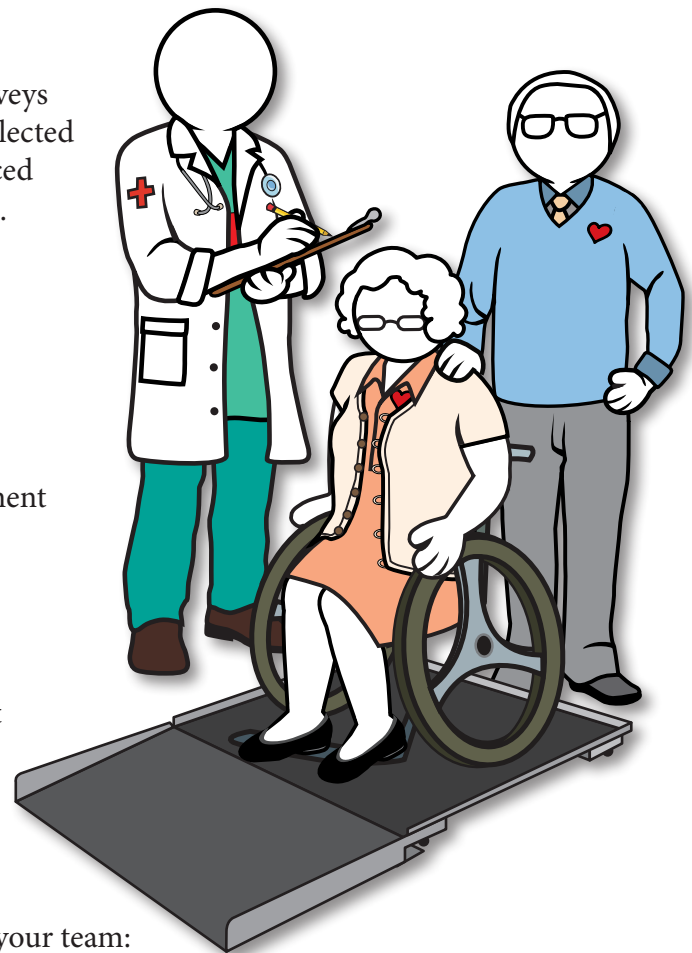

To provide better access and quality of care for more than 1.2 million IEHP Members, and as an investment in the community, IEHP created the Accessible Clinics Program to purchase accessible equipment and training for eligible network Provider sites in the Inland Empire.

Program Description

In the summer of 2016, IEHP began accepting applications/surveys to be considered for the program. Program participants were selected and IEHP provided accessible scales, exam tables and experienced accessibility trainers for ninety (90) eligible IEHP Provider sites.

Program Benefits

- ✚ Program grants do not require repayment.
- ✚ Program participants can now market their practice as an “Accessible Provider.”
- ✚ Program participants can help provide more effective treatment plans, get better outcomes, reduce workplace injuries and improve early detection.
- ✚ Patients are empowered. They can transfer onto exam tables themselves or be assisted in transfer.
- ✚ Program provides comprehensive training for all equipment and additional accessibility and community resources.

Program Resources

For those 90 Providers selected to participate in this important program, thank you. Here are some tools to help train you and your team:

- ✚ **Guidebook:** *Safe Transfers - Assisting Patients with Disabilities*
- ✚ **Video #1:** *How to Safely Transfer Patients with Disabilities to an Exam Table*
- ✚ **Video #2:** *Using an Accessible Scale to Weigh Patients with Disabilities*
