

FIND SUPPORT *with our*

HEALTHY SCHOOL PROGRAM

Through our Healthy School Program, you and your child are personally connected to no-cost health care and resources for your whole family.

OUR HEALTH NAVIGATORS HELP YOU:

- Find a doctor, schedule check-ups and medical appointments for your child.
- Access mental and behavioral health care to help manage stress, anxiety, or other challenges.
- Obtain family resources, like food, clothing, and housing, so your family can thrive.

Together, we can ensure your child is healthy, happy and set up for success – both in school and in life. Because sometimes, you just can't do it all on your own.
