

Program Description Provider Network Expansion Fund December 2020

SECTION I: OVERVIEW

The Inland Empire (IE) has one of the lowest ratios of Primary Care Physicians (PCPs) and Specialty Physicians per 100,000 people in California. It has been well documented that the IE probably does not have adequate PCP capacity to serve currently insured people, let alone the additional large number of individuals gaining coverage through the Affordable Care Act. The purpose of the Provider Network Expansion Fund Program is to support the hiring of PCPs, Specialists, and Midlevel Practitioners that will serve the Medi-Cal population in the Inland Empire.

SECTION II: FUNDING AVAILABILITY AND ALLOCATION

The funding available for PCP, Specialists, and Midlevel Practitioners are as stated below:

- 1. The subsidy per PCP is fifty percent (50%) of the one-year cost to a maximum per physician of \$100,000.
- 2. The subsidy per Specialist is fifty percent (50%) of the one-year cost to a maximum per physician of \$150,000.
- 3. The subsidy per Midlevel Practitioner is fifty percent (50%) of the one-year cost to a maximum per practitioner of \$75,000.
- 4. "Costs" as stated above are defined as a total of Provider salary and direct benefits only.
- 5. Fifty percent (50%) of the payment will be made when credentialing for the hired Provider is completed by IEHP. Twenty-five percent (25%) of the payment will be made after the Provider completes 6 months of service. The remaining twenty-five percent (25%) of the payment will be made when the Provider completes 1 year of service. Length of service will be calculated by Provider's IEHP effective date.
- 6. The funding opportunity will be withdrawn through termination of the Memorandum of Understanding (MOU) if the entity is unable to hire the Provider within 6 months from the signing of the MOU. At which point, an alternate site, entity, and Provider type may be selected.
- 7. IEHP reserves the right to unilaterally withdraw the funding opportunity at any point in the process.
